

# Coates Rollerboard™

Patented Menu System

3 DAY PART

Choose from a wall or ceiling mounted option

The Rollerboard™ is a manually operated three-sided Menu System.

## BENEFITS

- Easy and fast translite retention
- Flexible removal of translite dividers with each Rollerboard™ module ( this allows you the flexibility of accommodating various translite widths)
- Can be fitted to bulkhead or ceiling
- Easy automatic re-positioning following rotation
- Full 360° rotation
- Designed specifically to exclude loose parts over food preparation area
- Low energy consumption fluorescent tubes
- Requires only two fluorescent tubes per module
- Fluorescent tubes produce minimal heat build up
- Engineering lighting reflector system which eliminates dark spots, provides the correct colour rating and fresh illumination for your translite
- Limited moving parts
- Very low maintenance with rapid fluorescent tube access

## SPECIFICATIONS

The Coates Signco Rollerboard™ series IV is available in three sizes:

Single module - 568mm in length, accomodating a single translite.

Double module - 1162mm in length, accommodating translite configurations of one double or two single translites.

Triple module - 1726mm in length, accommodating translite configurations of one single and one double, or three single translites.

Rollerboard™ gives you the option of a wall mount or a ceiling mount three-day part Menu System.

The Rollerboard™ units are electrically wired for 220v - 240v, 50Hz as standard. 110v wiring and or special electrical requirements are also available.

## TRANSLITE SIZES

For best results we recommend satin finish translites to be used.

The Coates Signco Rollerboard™ accommodates translite sizes:

Single: 555 x 555mm (21.85 x 21.85") allow +1mm -3mm tolerance

Double: 555 x 1150mm (21.85 x 45.276") allow +1mm -3mm tolerance

Triple: 3 x 555 x 555mm (21.85 x 21.85") or, 1x 555 x 555mm (21.85 x 21.85") & 1 x 555 x 1150mm (21.85 x 45.276") allow + 1mm -3mm tolerance

Preferred translite thickness is 0.3mm (0.0118")

Viewing area:

Single: 529 x 521 mm (1 x single size translite)

Double: 529 x 521 mm (2 x single size translite), 1118 x 521 mm (1 x double size translite)

Triple: 521 x 521 mm (3 x single size translite); 1684 x 521 mm

(1 x double size translite) and 512 x 521 mm (1 x single size translite)

NOTE: Coates Signco recommends an engineer to be engaged to structurally certify menuboard installation. If menuboard installation is not structurally certified, Coates Signco will not be held liable for improper manufacture or installation of menuboard.

If Coates Signco is required to appoint an engineer the following process will be carried out:

- Initial site visit by engineer
- Drawing generated by engineer specifying additional structural requirements for the menuboard installation
- Engineer's return to site after installation is complete, checking that the structural work carried out adheres to engineer's issued drawings
- Engineer issuing engineering certification for the menuboard installation

If there are to install Coates Signco's Rollerboard System we recommend an engineer's certification following the procedures outlined is issued after the menuboard installation is complete.
